«address1»

The organization, Kidees & Associates has just formed about two months ago as "**<http://www.kidees.net>**" during business negotiation/communication with Rick Dees, Ellen-K, a producer Paul Joseph, and many other staffs (KIIS-FM and D's Entertainment, Los Angeles). The character of this organization is a hybrid of online-library and music-museum, since the style of this virtual library is inspired by U.S. National Library of Medicine (NLM) online "**<http://www.ncbi.nlm.nih.gov/PubMed/>**". National Library of Medicine (NLM)'s online provides abstracts of bio-medical scientific articles with abstract downloading utility, while Kidees.net will supply a clip (a short segment of the entertainment-art) of music, radio show, (and hopefully Movie/TV entertainment too in future), and will be developed to similar search interface and clip downloading function.

To increase its visibility and activity, incorporation process as a non-profit sector is on our way with help from Public Counsel Law Center (Los Angeles). According to its attorney Eric Medina, a supporting or sympathetic letter from your foundation will be helpful to obtain the legal non-profit corporation status complied with Federal 501(c)(3) section. We enclose our Mission statement, and look forward to hearing your foundation's sympathy. Thank you for your attention.

Sincerely,
